

## Audio Conference Services

For **Audio conference**, we use the Service from DSNL (Door Sabha Nigam Limited )

DSNL offers clear, high quality audio with 24/7 support. Conferences can be accessed through a wide range of domestic and international toll and toll free access numbers. Conference services that are simple, feature rich and convenient, available for any size, at any time, from anywhere.

How does this work?

Dial in conference

### Step 1

Dial the access number

### Step 2

The chairperson enters the conference with his exclusive PIN number to moderate the conference. The participants enter their PIN number. They listen to hold music till the chairperson enters the conference call.

### Step 3

Join the conference call. All participants can speak and listen to everyone else on the conference call.

## How to Schedule a conference call by yourself
